Washington, DC – Today, U.S. Congresswoman Gwen Moore (D-Milwaukee) made the following statement after House Republicans introduced their legislative agenda:

“Don’t be fooled – there’s nothing new about this.

“Tax cuts for millionaires and billionaires and breaks for big businesses didn’t create jobs over the last 10 years. Why would we think it would be any different this time?

“Government has a rightful role to protect consumers from greed and fraud, but this agenda gives power back to corporations. We’ve had enough of that – we know right where it leads us.”
