Wisconsin
Republicans want Wisconsinites to believe that they’re better off under unchecked GOP control of Washington.

President Donald Trump tweets that “Our Economy is setting records on virtually every front - Probably the best our country has ever done. Tremendous value created since the Election.” Speaker Ryan tells the press that "by just about any economic measure, the American people are better off now."

But it is only the well-off who are weathering the rising costs and destructive consequences of the Republicans’ reckless, special-interest first policies.

**Health Care Costs Rising** – 2,435,700 Wisconsinites with pre-existing conditions could lose key protections under Republicans’ lawsuit to strike down the ACA’s protections for people with pre-existing conditions. Republicans’ health care sabotage drove the average 2018 premium for the silver benchmark plan for a 40-year-old in the ACA Marketplace in Wisconsin up by 55%, compared to 2017.

**Prescription Drug Prices Increasing** – While President Trump backed down from his promise to have Medicare negotiate down prescription drug prices, 12 of the top 20 most costly drugs for Medicare Part D increased in price in the first year of the Trump Administration. In the first seven months of 2018 alone, there were 4,412 brand-name drug price increases and 46 price cuts, a ratio of 96-to-1.

**Tax Scam Failing Families** – 330,320 Wisconsin taxpayers will see NO tax benefit or will suffer a tax hike by 2019, while the wealthiest 1 percent of Wisconsin residents received a total of more than $1.5 million.

**Real Wages Stagnant** – Since President Trump’s inauguration in January 2017 to August 2018, real average hourly wages in Wisconsin have remained relatively flat, increasing just 0.5 percent.

**Unmet Infrastructure Needs** – Due to the lack of federal investment in the state’s infrastructure, Wisconsin residents are facing considerable challenges in their communities including an estimated $1 billion to address drinking water needs and more than $6.3 billion for wastewater infrastructure shortcomings.

Republicans are trying to focus attention on the stock market and the wealth of big corporations. Democrats are listening to the voices and the stories of the hard-working Americans that the President and the GOP Congress have long ignored.

Democrats’ agenda is For The People: lower your health care costs and prescription drug prices, increase your pay through strong economic growth by rebuilding America and clean up corruption to make Washington work for you.
President Trump promised that under Republican leadership, health care would be “a lot less expensive for you…”¹⁰ and “we are going to get rid of Obamacare – which has caused soaring double-digit premium increases – and give choice to patients and consumers.”¹¹

But the GOP’s relentless attacks on Americans’ health care are threatening the affordable coverage of millions with pre-existing conditions, hiking the cost of prescription drugs and raising premiums for everybody.

Republicans’ health care sabotage drove the average 2018 premium for the silver benchmark plan for a 40-year-old in the ACA Marketplace in Wisconsin up by 55%, compared to 2017.¹²

Under Republicans’ lawsuit to strike down the ACA’s protections for people with pre-existing conditions:

- **2,435,700 Wisconsin residents with pre-existing conditions** could lose key protections.¹³
- **Nearly 1.2 million women and girls in Wisconsin** with pre-existing conditions would lose protections.¹⁴
- **90,000 pregnant Wisconsin women** risk losing their coverage.¹⁵
- Insurers could deny coverage outright or impose massive surcharges on people with pre-existing conditions, **such as up to:**¹⁶
  - $4,270 for asthma;
  - $5,510 for diabetes;
  - $17,060 for pregnancy;
  - $26,180 for rheumatoid arthritis;
  - $57,090 for acute myocardial infarction (heart attack);
  - $140,510 for metastatic cancer.

If House Republicans had succeeded in having the American Health Care Act, their House-passed Trumpcare legislation to repeal the Affordable Care Act, signed into law:

- More than 416,000 Wisconsinites would have lost coverage under Trumpcare by 2026.¹⁷
- 223,500 Wisconsin residents with Medicaid would have lost coverage.¹⁸
- 7,600 veterans in Wisconsin would have lost their Medicaid coverage.¹⁹
- Out-of-pocket health costs for older Wisconsinites could have increased by as much as $8,707 a year by 2020, due to Trumpcare imposing what the AARP calls an “age tax” by allowing insurers to charge people over age 50 five times more.²⁰
- The negative economic impact of the American Health Care Act would have caused 10,838 Wisconsin residents to lose their jobs by 2022.²¹

**Prescription Drug Costs Soaring**

President Trump once declared that big pharmaceutical companies are “getting away with murder”²² and that “we’re going to negotiate like crazy”²³ on Medicare Part D prescription drug prices.

But when he unveiled his agenda in May 2018, President Trump backed down from his promise to enable Medicare Part D to negotiate down drug prices – and Big Pharma stocks surged.²⁴ The GOP tax law even handed Big Pharma massive tax breaks that have funded more than $50 billion in stock buybacks to enrich top investors and executives.²⁵
Now Wisconsin seniors and families are stuck with soaring prescription drug costs:

- In the first seven months since passage of the GOP Tax scam, an investigation by the Associated Press found 4,412 brand-name drug price increases and 46 price cuts, a ratio of 96-to-1.\(^26\)
- 16 of the top 20 best-selling drugs in the United States increased significantly in price in the first year of the Trump Administration, mostly by double digits.\(^27\)
- 12 of the top 20 most costly drugs for Medicare Part D increased in price in the first year of the Trump Administration.\(^28\)

**TAX SCAM FAILING FAMILIES**

In selling Republicans’ tax bill, President Trump claimed it “would likely give the typical American household a $4,000 pay raise.”\(^29\)

In practice, however, the benefits of the new tax bill were designed to flow overwhelmingly to big corporations and the wealthiest 1 percent:

- **330,320 Wisconsin taxpayers** will see NO tax benefit or will suffer a tax hike by 2019, while the wealthiest 1 percent of Wisconsin residents received a total of more than $1.5 million.\(^30\)
- **980,870 Wisconsin taxpayers** will see NO tax benefit or will suffer a tax hike by 2027.\(^31\)

**REAL WAGES STAGNATING**

In an October 2016 rally in Green Bay, then-candidate Trump promised Wisconsin residents: “Your jobs will come back under a Trump Administration. Your incomes will go up under a Trump Administration. Your taxes will go way down under a Trump Administration. Your companies won’t be leaving under a Trump Administration.”\(^32\)

But in the 19 months since President Trump’s inauguration in January 2017, **real average hourly wages in Wisconsin have remained essentially flat, increasing just 0.5 percent.**\(^33\)

- Inflation has **jumped 1.9%** in the Midwest from September 2017 to September 2018.\(^34\)
- As of September 2018, **motor fuel costs are up 13.7%** from a year prior in the region.\(^35\)
- And food prices continue to rise, with the **price of a dozen eggs up more than 21.3%** over the past year.\(^36\)

American workers face new obstacles under Republican control of Washington:

- As of October 5, 2018, there have been 13,891 **WARN notices of plant closings and mass layoffs** in Wisconsin since President Trump took office.\(^37\)
- **More than $1.4 billion in state exports are threatened** by China’s retaliatory tariffs in Wisconsin, including more than $69 million in fire fighting vehicles.\(^38\)
- 87% of Wisconsin exporters are small and medium-sized businesses.\(^39\)

Republicans continue to leave behind students, families and millennials with huge loan burdens:

- Total outstanding student loan debt balance in Wisconsin: **an estimated $24.4 billion.**\(^40\)
- Average student debt for students at public and private 4-year institutions in Wisconsin: **$29,569.**\(^41\)
- Share of students at public and private 4-year institutions in Wisconsin with debt: **64%.**\(^42\)
President Trump promised Americans “the biggest and boldest infrastructure investment in American history.”  

However, he and the Republican Congress have refused to bring forward meaningful legislation to address the massive infrastructure backlog in the United States.

The GOP’s refusal to make good on this promise to rebuild America’s broken infrastructure hurts Wisconsin families, endangers public health and weakens Wisconsin’s ability to compete in the global marketplace.

- Driving on roads in need of repair in Wisconsin costs each driver $637 per year.  
- 157 dams are considered to be high-hazard potential and 1,232 bridges are rated structurally deficient. 
- Drinking water infrastructure needs in Wisconsin are estimated to be $1 billion over the next 20 years.  
- Wastewater infrastructure needs are estimated to be more than $6.3 billion over the next 20 years.
